

PC600WS

Arcnet 16-bit ISA-Card

The **PC600WS** Arcnet-Card is the solution for Production-Lines, Process Control and other Machine-Steering components based on Arcnet.

Features:

- ◆ 90C66 Compatible
- ◆ Nodal Priority (I/O-mapped for easy installation)
- ◆ Supports 255 Nodes
- ◆ External diagnostic LED's and ID-switches
- ◆ Jumper for star or bus selection
- ◆ Onboard auto boot PROM socket
- ◆ Operable with all IBM AT and compatible bus machines

Specifications:

Standard:	Compliant to ANSI/ATA878.1 and IEEE P996 (Personal Computer Bus Standard Draft 2.2, July 1990)
Chipset:	SMC 111.12032DSMD/D9447
Compatibility:	PCA66 Series
Interface:	ISA
Ports:	BNC
Topology:	Coax Star or bus (bothStandards)
Data Link Protocol:	ARCNET
Data Rate :	2,5Mbit/s
Interrupt Lines:	Supports straping of IRQ 2/9 , 3, 4, 5, 6, 7, 10, 11, 12, 14, ,15
Operating Temperature:	0°C ~ 60°C
Storage Temperature:	-40°C ~ +85°C
Dimensions:	106mm x 165mm
Box contains:	Card
EAN:	4016621004705
